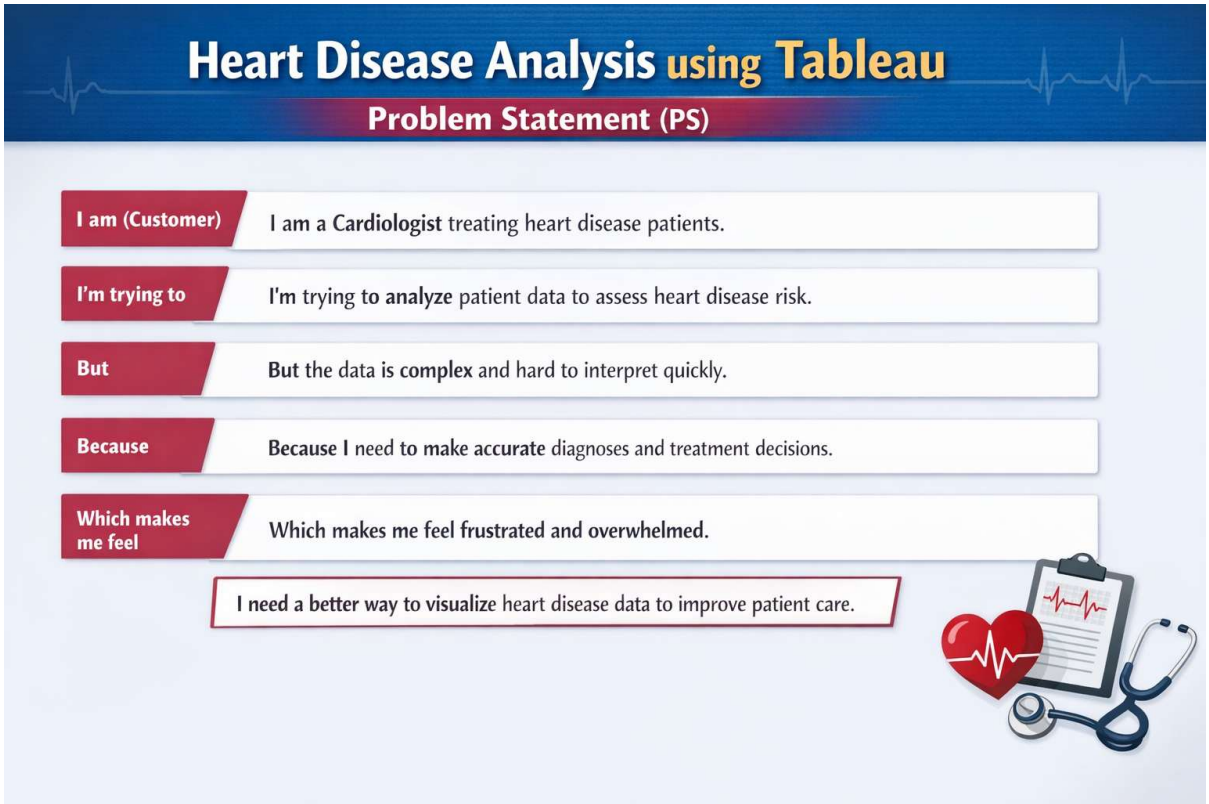
Heart Disease analysis template



Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a doctor or healthcare analyst	to analyze patient health data to identify heart disease risks	large datasets are difficult to interpret quickly	the data is scattered across multiple variables and formats	that valuable insights might be missed
PS-2	a hospital administrator	understand trends in heart disease cases	traditional reports are difficult to visualize	they do not provide interactive or graphical insights	decision- making slower
